REMOVAL OF DEPOSITS FROM COPYRIGHT OFFICE

NOTICE is given to authors, copyright proprietors and other lawful claimants that they may claim and remove before January 1, 1958, any article of the following named classes of published works deposited for copyright between January 1, 1954, and January 1, 1955, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the United States Code and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

Books and Pamphlets.
Contributions to periodicals.
Works of art; models or designs for works of art.
Reproductions of a work of art.
Drawings or plastic works of a scientific or technical character.
Photographs.
Prints and pictorial illustrations excluding prints or labels used for articles of merchandise.

Other published works and all unpublished works are excluded from this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington 25, D. C.

L. C. card, 6-35347

This number identifies the Library of Congress printed card for the complete series of the Catalog of Copyright Entries.

For sale by the Register of Copyrights, Library of Congress, Washington 25, D. C. Price for this part: $2.50 per issue, $5.00 per year.

Form IV

Preface

The CATALOG OF COPYRIGHT ENTRIES is published by authority of sections 210 and 211 of Title 17 of the *United States Code*. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

The *Catalog* is subdivided to represent the classes of material listed in section 5 of said Title 17. The table at the end of this preface shows the organization of the *Catalog*, the symbols used with the registration numbers to distinguish the classes, and the prices of the semiannual issues. The annual subscription for each part is twice the price of a single issue and the complete catalog, including all parts, may be secured on a subscription basis for $20 a year.

The record of each copyright registration listed in the *Catalog* includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant, as given in the application for registration, the copyright date, the copyright registration number, etc.) Available information in the records of the Copyright Office, including information relating to subsequent changes of ownership, can be obtained upon request and upon payment to the Register of Copyrights of the fee specified in section 215 of said Title 17 ($3 for each hour of time consumed) for the conduct of a search of the records.

In the case of each registration listed, except for renewals, the deposit of a copy (or copies) of the work has been made in accordance with the provisions contained in sections 12, 13, or 215 of said Title 17, or, in the case of published three-dimensional works of art, there has been compliance with section 202.8 (b) (3) of the regulations of the Copyright Office published in the *Code of Federal Regulations*, 1949 edition, which provides for the deposit of identifying reproductions in lieu of the work itself. Foreign works, two copies of which were deposited with a catalog card and application for registration under the waiver-of-fee provision in section 215 of Title 17 of the *United States Code*, are indicated by a zero immediately following the alphabetical symbol in the registration number.

For a more complete description of the contents of this issue of the *Catalog* see p. vii.

Orders, payable in advance, for all parts of the *Catalog of Copyright Entries* should be sent directly to the Register of Copyrights, Library of Congress, Washington 25, D. C. Orders may be placed for individual issues, as subscriptions for one or more parts, or for the complete *Catalog*, and for periods of one or more years. All orders should state clearly the title and the inclusive dates of the part wanted. Checks or money orders should be made payable to the Register of Copyrights.

The Copyright Office welcomes inquiries, suggestions and comments on the content and organization of the *Catalog*. Such communications should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.

Table of Organization

Each part listed in the table records all current registrations in the class or classes indicated by the alphabetical symbols given. In each case the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis. A zero immediately following the symbol (e. g., AF0, EF0) distinguishes a foreign work deposited under the waiver-of-fee provision. The symbol R does not represent a class designated by the copyright law, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. These are recorded in a separate section of those parts of the *Catalog* which cover the classes in which the works were originally registered with the exception of music. Some parts also contain registrations made under other symbols if the subject matter or type of material is similar to that generally included in the part.

INTRODUCTION

PART 1 lists works registered in Class A and contributions to periodicals registered in Class B under the symbol B5.

The works listed include not only the current output of the publishing industry of the United States and many works in English and in foreign languages published abroad, but also the products of many specialized publishing enterprises. Thus, in addition to novels, biographies, poems, books on history, religion, etc., and other works of general interest, there are included business reports and yearbooks, trade catalogs and directories, manuals, instruction books, industrial and legal services, research studies in many fields, and, in some instances, printed matter attached to or accompanying games, filmstrips, and other articles.

The list of Current Registrations is arranged under the name of the author (i. e., the person or organization principally responsible for the content of the work) or, in the case of serials, compendia, etc., under the title. Each work registered is described in a main entry which includes information pertinent to the copyright claim. References are made from the names of contributing authors (e. g., joint authors, editors) and claimants, together with cross-references from variant forms of names. The list of Renewal Registrations is similarly arranged. The Title Index covers the works listed under names in the first two sections with the following exceptions: titles of telephone directories; titles which are so general as to be meaningless without the name of the author (e. g., *Poems*, *Proceedings*); and titles to serials, compendia, etc., which are listed under title in the first two sections. Titles of renewal registrations are distinguished by the symbol R following the title.

For works currently registered, the main entry includes, in addition to the name or title under which it is filed, the following items of information if available and applicable:

1) Title.
2) Names of joint authors, editors, translators, etc., generally if no more than two.
3) Series title, when useful as an aid in locating the work.
4) Edition statement for editions subsequent to the first, together with pertinent information relating to previous publication under a different title.
5) Name of the publisher when the publisher is not also the author or claimant.
6) Collation, consisting of the last numbered page in the main section of the work, number of volumes, or a descriptive term or phrase. Collation is not given for books that are unpaged or that have complicated or irregular paging.
7) Names of authors given in the application which do not appear elsewhere in the entry.
8) Name of the employer in the case of a work made for hire, if so named in the application, together with the names of the employees when given.
9) Information contained in the application which relates to the registration of an earlier version of the work.
10) Brief statement of the new matter on which copyright is claimed when this information is given in the application, if not already indicated in the entry, preceded by the abbreviation "NM."
11) Copyright symbol ©.
12) Name of the copyright claimant.
13) Date of publication as given in the application.
14) Registration number.

Whenever it is necessary to indicate a variation between the information given in the application and in the copy of the work with respect to the claimant's name or the date of publication, the data from the application are given first, followed by "in notice" and the data given in the work: e. g., © Richard Roe & Co.; 10Jan55 (in notice: 1954); A100206.

Works deposited in connection with copyright registration are subject to selection for inclusion in the collections of the Library of Congress. Library of Congress printed cards are available for many of the published works so selected. Orders for or inquiries concerning such cards should be addressed to the Card Division, Library of Congress, Washington 25, D. C.

For renewal registrations, the main entry includes, in addition to the name of the author or the title under which it is filed, the following items of information if available and applicable:

1) Title.
2) Names of authors of renewable matter.
3) Edition statement.
4) Number of volumes if more than one.
5) Series title, when useful as an aid in locating the work.
6) Brief statement of the new matter on which the original copyright was claimed, if available in the renewal application or the records of the Copyright Office, preceded by the abbreviation "NM."
7) Copyright symbol ©.
8) Date of original copyright.
9) Original registration number.
10) Name of the renewal claimant followed by a statement in parentheses, usually in abbreviated form, giving the basis of the renewal claim as supplied by the claimant, e. g., "John Doe (NK)" indicates that renewal of copyright is claimed by John Doe as next of kin of the deceased author.
11) Date of receipt of the renewal application or fee, whichever is later.
12) Renewal registration number.
